Hi Carl –

We are ready for a teleconference with you and others at FTA to discuss the nine emails that I received. As you discussed with Toru, this conference call will be at 8:30 a.m. Hawaii time tomorrow (Friday, May 21). Please send me the call in information.

Also, I did not receive the comments on Chapter 5, Section 4(f). If you did send it, please resend.

Thanks.

Faith

Subject: COMMENTS ON THE DOCUMENTS AND THE CITY'S RESPONSE TO COMMENTS...

Good Afternoon, Faith (or is it still morning there?): Our Administrator spoke briefly with the Mayor a few minutes ago, advising him that we are going to forward to you our comments on the draft final impact statement, the § 4(f) evaluation, and the City's responses to comments for your team to address. Attached to this e-mail is a nine page comment on the draft final impact statement. The first two pages of the comment provide a summary of our overall concerns; the remaining pages deal in specifics. I do not have a copy of the comments on the § 4(f) evaluation, but that will be forwarded to you soon. In separate e-mails (to avoid overloading the system), I will forward comments on the City's responses to the views provided by some of the project's more ardent critics; comments on some other City responses and other issues will be forwarded tomorrow. We made as many revisions to the documents as we could with the limited knowledge that we possess; our review and comments are as tightly focused as we could make them in the circumstances. A dozen FTA staff members have been working exclusively on the documents and comments for the past 8 to 10 days (including some nights and weekends). We're very near the finish line but it is going to take a concerted effort by your consultants to respond appropriately to our comments and conclude the process. We can schedule a conference call tomorrow (8:30 your time?) if you have questions or need clarification with respect to any

issue. Several e-mails will follow this one. We'll be in touch. Take care. Carl
